UPDATES₂₀₂₄

PERINATOLOGY CONNECT

One Journey

Two Lives

Shared Responsibility

Pregnancy is a dynamic journey in which maternal, fetal, and neonatal health are closely interconnected. With the recent change in pregnancy demographics comprising maternal comorbidities, assisted reproductive technologies, fetal anomalies, prematurity, and advances in fetal medicine, the management of these high-risk pregnancies demands a coordinated, evidence-based, multidisciplinary approach. NMOGS brings to you the UPDATES 2024 with the theme "PERINATOLOGY CONNECT" on 30th October, 31st October & 1st November 2024 at Kail Mumbai.

This conference is designed to bring together obstetricians, maternal-fetal medicine specialists, neonatologists, pediatricians, fetal medicine experts, intensivists, geneticists, radiologists, and allied healthcare professionals to explore the latest advances in perinatal care. The scientific program will feature prestigious orations, expert panel discussions, multidisciplinary debates, case-based learning, interactive clinical sessions, and theme-based workshops.

Participants will be able to optimize management of common high-risk obstetric conditions, improve fetal surveillance and decision-making, strengthen obstetric-neonatal collaboration, enhance delivery room preparedness for high-risk births and thereby apply evidence-based perinatology practices to improve maternal and neonatal outcomes.
