Lead Faculty

- Dr. Evita Fernandez
- Dr. V P Paily
- Dr. Pratap Kumar
- Dr. Ajit Virkud
- Dr. Sarina Gilvaz

Dear Friends,

NMOGS is poised to discuss another topic which is affecting all spheres of life, be it health , economy, sociology or even science.

It is the alarmingly increasing rates of unnecessary Caesareans which are assuming global proportions.

The never ending debate between science and commerce of medicine continues to haunt the clinicians. We shall collectively think over the issue , deliberate and decide an action plan for our maternity practice to promote natural childbirth before it assume gigantic dimensions .

An in-depth understanding of Art and Science of Natural Birth is crucial to the concept of Safe Birth. This leads to timely decisions which are in the right interest of the mother as well as the clinician.....thus maintaining the delicate balance of Natural and Caesarean births.

On the other extreme, no labor can be safe if we are not adequately prepared for the probable blood loss. This spells our preparedness to combat PPH - arm ourselves with the available resources and manpower in our own setups to fight this cold killer.

So let's march together towards safe and natural deliveries and pave a paradigm shift from the present.....let's begin from Navi Mumbai.

Dr Jyoti Bobe
Secretary NMOGS

Dr Sucheta Kinjawadekar
President NMOGS
